Key benefits

Tailor every pixel

Change colours and fonts at the touch of a button, and adding text, pictures, music and video is as easy as drag and drop. Enrich your website with social media features, maps, contact forms and ecommerce functionality.

Hosting included

Hosting is included so there is no need to buy additional packages to make your website accessible to the world.

As flexible as you need it to be

Easy to get started with if you are a beginner and powerful enough to scale if you are a seasoned designer, SiteDesigner's built-in design tools allow anyone to create completely unique sites.

SiteDesigner FAQs

Can I set up an online shop?

Ecommerce is available the Pro package. You can use our Google Checkout Widgets or you can embed another ecommerce platform into your site (such as Paypal).

Can I add adverts to my website?

Yes you can.

I want to show my images - Do you have a gallery?

Yes, we have a Carousel Widget, which lets you create a sequence of images or other elements.

I already have a site. Can I import it into SiteDesigner?

No you cannot import a site into SiteDesigner, but you can easily recreate it.

Can I upload my own videos to my SiteDesigner site?

You can upload videos up to 20mb. If your video is bigger than this, we recommend you use a video hosting service like YouTube or Vimeo and embed it.

Can I have more than one website?

You can create and publish one website per package. If you want multiple websites you will have to buy additional SiteDesigner packages.

Do SiteDesigner sites have good Search Engine Optimisation (SEO) performance?

All websites are built in HTML and CSS, rather than Flash, which means they are naturally search engine friendly. For users who want to get more advanced with SEO, you can edit page titles, meta descriptions, add contextual links and much more.
